Page 11: Funding agency missing for Switzerland: The Swiss Federal Office of Public Health, contract 02.000537.

Figures 17abc and 45ab Sweden: Boys: 18%, Girls: 14% and All students: 16%.

Figure 19a: The names of Estonia and Iceland are mixed up. Thus, the value for Estonia should be 24% and for Iceland 13%.

Figure 29b: Different scales format for boys and girls. Thus, the indicated values are correct, but the size of bars makes the values for girls look lower than they actually are.

Tables 21abc Sweden: Boys %: 61, 22, 10, 4, 4, Girls %: 65, 21, 7, 4, 3, All students %: 63, 22, 8, 4, 4.
