### Responsible persons

**Person responsible for the dataset** <sup>1)</sup> Patrick Lambrecht

**Person responsible for the analysis** Patrick Lambrecht & Tiffany De Meulder

### Details of planned work

**Type of publication**       Paper/article       Report       PhD  
 Other, which:    Masters research

**Working title of the publication**    Relation between parental monitoring and the frequency of marijuana use during adolescence: a cross-cultural view.

**Research question(s)**    The purpose of this research is to see whether parental monitoring is associated with how much marijuana adolescents use. We expect that the youngsters, who experience little parental control, will use more marijuana than those who experience more parental control. Also, we are curious to know if these potential differences will be found across cultures.

**Variables to be included in the analysis**    all variables on demography, alcohol consumption, smoking, drug taking and delinquent behavior, namely Q 1, 2, 4, 17- 30, 34, 37, 40-45, A1-A5.
