Details of planned work

Type of publication Paper/article Report PhD
 Other, which:

Working title of the publication GENDER DIFFERENCES IN WET AND NON-WET YOUTH CULTURES

Research question(s) Hypothesis are: a) There are less gender differences in young people's drinking habits in the wet countries than in the non-wet countries b) Girls consume on average smaller quantities of alcohol per drinking occasion than boys in every country. c) Boys drink beer and spirits more often than girls in every country, but boys drink wine more often than girls only in the non-wet countries. d) Gender differences in the frequency of drinking are smaller when the beverage type is new in the drinking culture than when the beverage type is traditional.

Variables to be included in the analysis Gender, the prevalence of drinking at least 10 times during the previous 30 days, prevalence of intoxication at least 10 times during the previous 12 months, estimated average consumption of beer, wine, spirits, alcopops and cider in centilitres of

¹⁾ This can only be a Principal Investigator or a Chair of an ESPAD Thematic group. When the application is approved the Principal Investigator/Chair of a Thematic group has to sign an agreement that the delivered dataset only will be used for the applied project and that all use of the dataset will be done according to the rules in the document "Rules for the use of ESPAD databases".

²⁾ The meaning of the levels can be found in the document "Rules for use of ESPAD databases".

³⁾ If level 2 data should be included, the application needs to be accompanied by a written confirmation from the Principal Investigator in the country/ies concerned.

100% alcohol on the last drinking occasion, and the prevalence of drinking beer, wine and spirits at least three times during the previous 30 days and parents' knowledge where on Saturday nights.

Countries to be included in the analysis All at level 3 ²⁾

All at level 2 ³⁾ and 3

A more limited number of countries, namely: United Kingdom, Denmark, Sweden, Finland, France, Portugal, Hungary and Greece

1) This can only be a Principal Investigator or a Chair of an ESPAD Thematic group. When the application is approved the Principal Investigator/Chair of a Thematic group has to sign an agreement that the delivered dataset only will be used for the applied project and that all use of the dataset will be done according to the rules in the document "Rules for the use of ESPAD databases".

2) The meaning of the levels can be found in the document "Rules for use of ESPAD databases".

3) If level 2 data should be included, the application needs to be accompanied by a written confirmation from the Principal Investigator in the country/ies concerned.
